RE: Living Building Challenge Red List Requirements

Dear Valued Customer:

Cascadia Metals has made a commitment to our customers, employees, and communities to be environmentally aware and support continuous efforts to improve our environmental footprint and the sustainability of our products.

To that end, we have reviewed the Living Building Challenge Red List requirements as published in July 2014. Cascadia Metals confirms that to our knowledge all materials utilized in our metallic-coated steels (Galvanized and 55% Aluminum-Zinc Alloy Coated), which we supply to our customers, do not contain or utilize any chemicals outlined in the 2014 LBC Red List.

We can provide a Material Safety Data Sheet (MSDS) on both products from one of our suppliers upon request.

If you need more information or have further questions please feel free to contact me directly at 360-232-0209 or by email at [renee@cmetals.com](mailto:renee@cmetals.com).

Respectfully,  
Cascadia Metals  
Renee Ramey
