**For custom colors and/or print patterns,
please contact your
Cascadia Metals Sales Representative.**

The base metal for our Printech Woodgrain Series is a 55% Aluminum-Zinc Alloy Coated Steel.

Printech printed steel is batch sensitive and directional in nature. We strongly advise against mixing batches on any project.

The colors shown here are representative of the actual colors but are limited by printing conditions. Actual pre-painted metal samples are available upon request.

Additional sizes and colors may be available with a minimum order quantity. Inquire with your Cascadia Metals Sales Representative.
